

CYBER ROC Cybersecurity Co

Your **Trusted** Partner for a **Secure,**
Sustainable Digital World

About Cyber Roc

Cyber Roc is a pioneering Saudi cybersecurity company dedicated to fortifying the Kingdom's digital ecosystem and driving the innovation and growth envisioned in Saudi Arabia's Vision 2030. Our team comprises seasoned experts across various cybersecurity disciplines, adhering to internationally recognized best practices to provide comprehensive solutions from penetration testing and security architecture to managed services and advanced training.

Our customer centric approach, combined with our commitment to quality and innovation, positions us as a trusted partner for safeguarding sensitive data, ensuring regulatory compliance, and steering organizations toward secure, sustainable digital transformation.

Vision

By 2025, **Cyber Roc** will rank among the top five cybersecurity and solutions providers in the Kingdom of Saudi Arabia and lead Saudi technology exports, with at least one quarter of our revenue derived from global markets supporting the Kingdom's emergence as a global technology powerhouse.

Mission

At **Cyber Roc**, our mission is to protect and empower organizations through cutting edge cybersecurity solutions, cultivate local talent, and foster innovation driving national growth and elevating Saudi Arabia's global digital standing.

Why Cyber Roc?

Local Expertise, Global Standards: We merge our comprehensive understanding of the Saudi market with up-to-date global best practices.

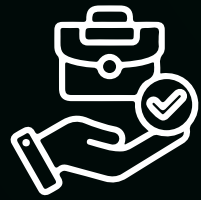

Comprehensive, Integrated Solutions: We offer a wide range of security services to meet every need within an organization.

Innovation-Driven: We continuously track technological developments to deliver effective, lasting protection.

Strategic Partnerships: We collaborate with top global technology providers to ensure exceptional outcomes for our clients.

Core Values

Credibility

We firmly believe in building trust through transparent communication, ethical conduct, and consistent delivery on our promises.

Innovation

We invest in advanced research and continuous development to ensure our solutions remain at the forefront of the cybersecurity landscape.

Quality

We uphold rigorous standards in every aspect of our work, from project execution to customer support, delivering reliable, world class services.

Confidentiality

We safeguard sensitive information by maintaining robust data protection measures, prioritizing client privacy above all else.

Professionalism

We uphold the highest standards of expertise, integrity, and accountability. By consistently aligning our methods and solutions with global best practices, we ensure our services meet and exceed international benchmarks.

Core Cybersecurity Specialties & Services

1 Penetration Testing

We conduct in-depth vulnerability assessments and “Red Team” penetration testing to identify and evaluate potential threats, ensuring our clients’ systems remain secure and resilient.

2 Protection Product Licensing Services

We offer specialized licensing and deployment of cutting-edge cybersecurity products, ensuring organizations have the right tools to maintain optimal protection and compliance.

3 Security Training & Awareness

We deliver customized training programs that equip teams with the knowledge and skills needed to identify, prevent, and respond to evolving cyber threats.

4 Security Architecture & Development

We design and implement robust security solutions, integrating advanced technologies and best practices to protect critical infrastructure and data at every layer.

5 Managed Security Services

Our end-to-end security monitoring and management solutions provide proactive threat detection, rapid response, and continuous protection, allowing clients to focus on their core operations.

6 Identity & Access Management (IAM)

We implement and maintain secure authentication, authorization, and multi-factor solutions, safeguarding sensitive information while streamlining user access.

7 Cybersecurity Consulting & Compliance

Our expert guidance on policies, governance, and industry standards helps organizations comply with regulations and adopt a “security-first” culture.

8 Incident Response & Disaster Recovery

We offer swift, decisive support during security breaches, minimizing downtime and restoring operations through structured recovery and remediation plans.

Target Customers

Government Agencies

We partner with public institutions to safeguard national infrastructure, ensuring sensitive data remains protected and compliant with regulatory requirements.

Private Sector Companies

From startups to large enterprises, we provide tailored security solutions that help organizations secure their assets, maintain customer trust, and support sustainable growth.

Financial Institutions

Banks, insurance providers, and fintech companies rely on our expertise to meet stringent compliance standards and protect critical financial data against cyber threats.

Educational Institutions

Universities, colleges, and research centers benefit from our advanced security measures that safeguard intellectual property and uphold privacy for both students and faculty.

Contributing to Vision 2030 Through Secure Digital Transformation

Cyber Roc plays a pivotal role in advancing Saudi Vision 2030 by empowering organizations to securely adopt and leverage cutting edge digital technologies. Our contributions include:

Enabling Secure Digital Infrastructure

We design and implement comprehensive security frameworks that protect vital systems and data, ensuring government agencies and private entities can confidently embrace digital transformation.

Fostering Local Talent & Innovation

Through specialized training and continuous development programs, we help cultivate a skilled local workforce, driving innovation and competitiveness in the Saudi cybersecurity landscape.

Strengthening Regulatory Compliance

Our expertise in regional and global cybersecurity standards ensures organizations remain compliant, promoting trust and stability in the Kingdom's expanding digital economy.

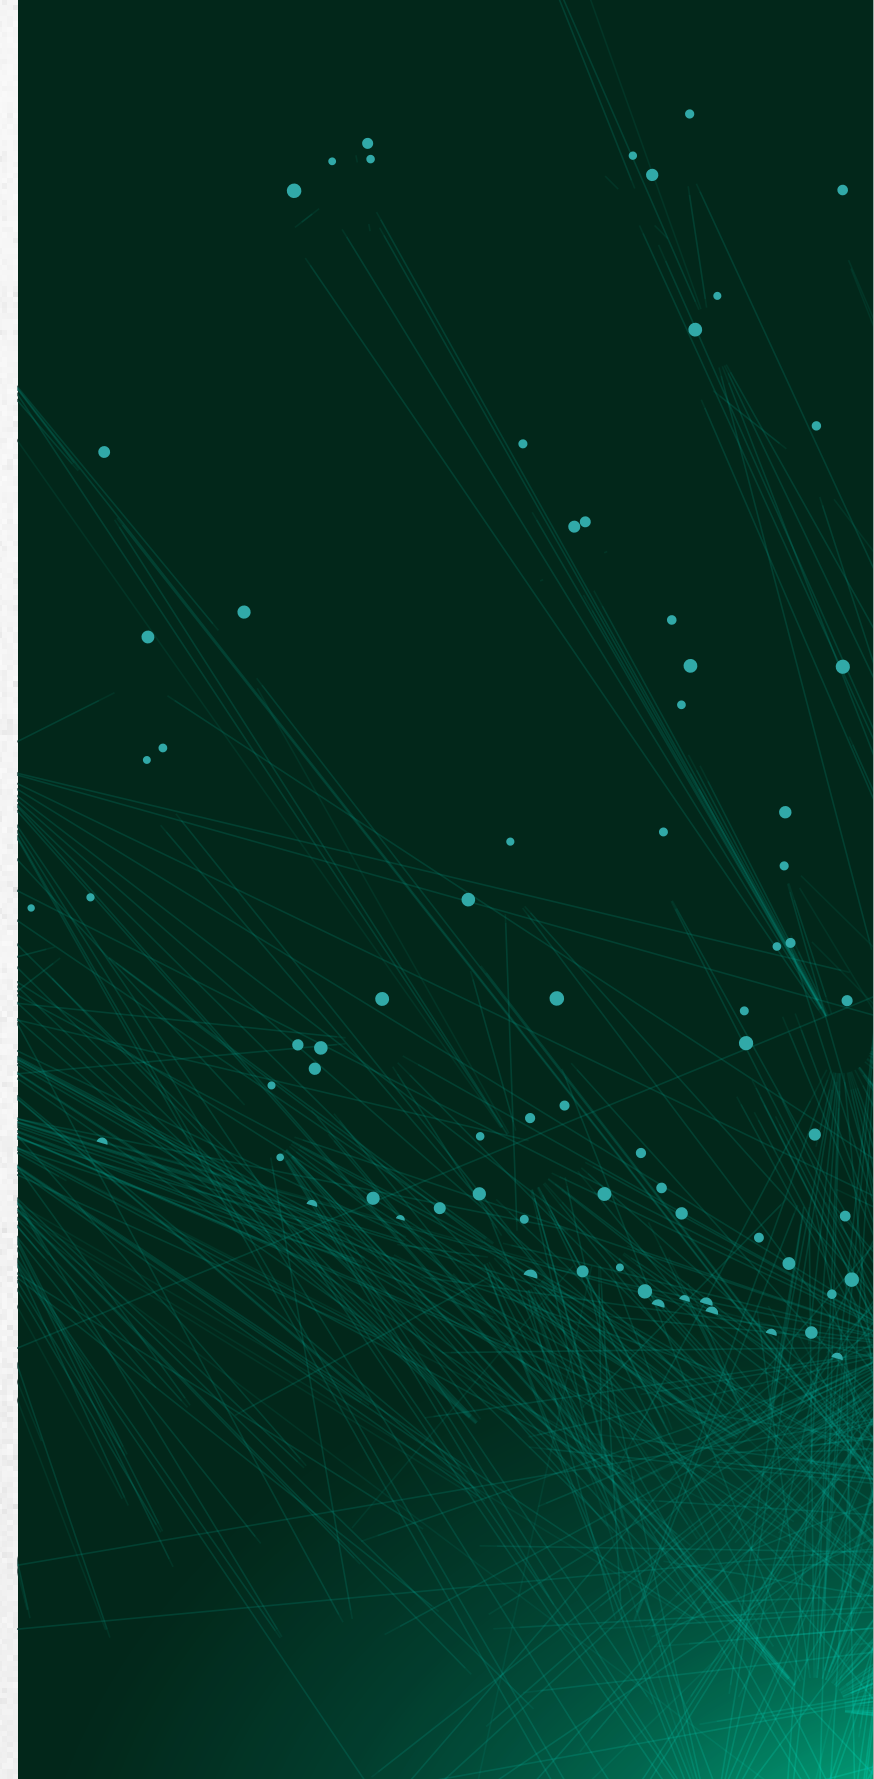

Promoting Sustainable Growth

Through collaborative partnerships and forward-thinking initiatives, we support the Kingdom's ambition of becoming a global hub for technology, innovation, and sustainable development.

Our Message to Potential Customers & Partners

At **Cyber Roc**, we are committed to delivering robust, innovative cybersecurity solutions that empower organizations to confidently embrace digital transformation. By blending global best practices with a deep understanding of local needs, we serve as a trusted partner securing vital assets and enabling sustainable growth. Our dedication to excellence, integrity, and continual innovation is at the heart of everything we do, making us the ideal choice for those seeking to thrive securely in today's interconnected world.

Conclusion

By steadfastly committing to securing the Kingdom's digital infrastructure, **Cyber Roc** unites professionalism with agility in providing leading security solutions. Our ambitious vision to become a local and global frontrunner in cybersecurity, coupled with our mission to support secure digital transformation, drives us to make a tangible, positive impact across both public and private sectors ultimately enabling sustainable growth in line with Saudi Vision 2030.
